## REPORT OF AUDITORS.

---

We hereby certify that we have examined the accounts of the selectmen, town treasurer, town clerk, tax collector, library trustee, trustees of the trust funds, and precinct report for the year ending January 31, 1929, and find them correctly kept and properly vouched.

EVA G. GRIFFIN,  
FLORENCE M. DURGIN,  
*Auditors.*

In accordance with the vote taken by the Town at the annual Town Meeting March 13th, 1928, the Municipal Accountant of the State Tax Commission, Mr. Harold G. Fowler, made an audit of the town books beginning with the fiscal year of 1926 and up to the time of audit, August 10th, 1928, checking up accounts of the Selectmen, Treasurer, Tax Collector, and Town Clerk and verifying same.

Mr. Fowler also made helpful suggestions relating to the keeping of the different accounts.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Gilmanton School Board:

I herewith submit for your consideration my sixth annual report as superintendent of schools. Its purposes will be to state some of the most vital facts about the schools for the past year, to compare some of those facts with information given in previous reports, and to discuss some of the important needs of the future.

### TEACHERS.

The only change in the teaching force during the school year was at the Jones' Mills School which was closed for the winter term after Roxey Carroll resigned. Louise E. Gelpke, a graduate of Keene Normal School, was employed for the spring term. At the end of the year only one teacher decided to return. The following table lists the present teachers:

Teachers	School	Training	Exp.	Salary
Lena E. Greene	Kelley's Corner	Plymouth, '27	1	\$900
Doris Davis	Corner	Keene, '27	1	1000
Beatrice V. Carpenter	Iron Works	Aroostook State	2	1050
(Elsie M. Everett	to Oct. 3)	Normal, '26		(1050)
Mary Savalainen	Sanborn	Keene, '28	4½	850
Lillian G. Buzzell	Smith Meeting H.	3 Summer sessions	3	785
Julia I. Trudell	Jones' Mills	Dewey Tr., '28	0	850

### INSTRUCTION.

Last spring standard tests were given in reading to Grades II to VIII, in Arithmetic Reasoning (Problem Solving) to Grades III to VIII, and in general achieve-

ment to Grades IV to VIII. These were in addition to the usual achievement tests given to Grade VIII only.

Last November other standard tests were given in reading to Grades II to VIII; in arithmetic computation, arithmetic reasoning, language usage, and spelling to Grades III to VIII; in grammar and history to Grades VII and VIII; in geography to Grades V to VIII, and in nature study and health to Grades IV to VIII. The results of both of these testing programs have been carefully studied and discussed at teachers' meetings, and they have been found exceedingly helpful to teachers and superintendent in determining the type of instruction each pupil should receive.

It is planned soon to give another series of tests to further check the results of our efforts.

The results of the tests given in June each year for the past five years to the eight grade pupils are significant. In June, 1924, the average of the scores was 6.6; that is, a group of *sixth* grade pupils up to standard would have done as well six months along in their grade as this *eighth* grade group did in their ninth month. In other words they were two years and three months behind the standard. In June, 1925, the average was 8.0; that is, they were only nine months behind. In June, 1926, the average was 8.7, or two months below the standard. In June, 1927, the average was 9.2, three months *above* standard. In June, 1928, the average was 8.2, seven months below standard. I believe this improvement in the quality of work being done is noteworthy, and the results for the past three years indicate that Gilmanton pupils are being well prepared for high school.

#### PROMOTIONS.

During the year sixty-one pupils were promoted to the next grade, and seven, or 10.3 per cent, failed of promotion.

Only three pupils received certificates of admission to high school: Mabel Avery, Albert Edgerly, and Margaret Munsey. Two of these pupils entered high school last fall.

#### HIGH SCHOOL PUPILS.

Five Gilmanton pupils are attending secondary schools in other districts:

Alton H. S.: Mary Martin.

Laconia H. S.: Florence Ford, Janie Mansfield, and Margaret Munsey.

Pittsfield H. S.: Albert Edgerly.

#### ROLL OF HONOR.

The following five pupils were neither absent nor tardy for the school year ending June 30, 1928: Olive Burres, Albert Edgerly, Ralph Goodwin, Charles Hawkins and Irene Hawkins.

#### HEALTH.

The following report of the school nurse shows the effective work done last spring, especially in the correction of defects, and the need for further work. Special attention was given then to bad tonsils and adenoids, and this year it is hoped that a dental clinic may be held to help that large group of pupils (61 last May) who have defective teeth.

It may be noticed also that only 22 pupils of the 70 examined were reported as having been vaccinated. Parents have been reminded that the state law makes vaccination compulsory, and this matter should be attended to before the opening of the fall term next September.

# REPORT OF SCHOOL NURSE.

Date of examination, May, 1928.

Examiner, Harriet M. Curren, R. N.

Number examined, 70.

Number not examined: Not present, 4.

Communicable diseases: Number pupils excluded, 0.

Defects	Number affected	Reported to parents	Receiving treatment	Defects corrected since last examination
Underweight (10%)	8	8	1	1
Defective vision	11	11	2	2
Defective hearing	0	0	0	0
Nervous condition	2	1	1	0
Cardiac disease	2	1	1	0
Defective teeth	61	61	0	0
Defective breathing	22	22	2	2
Diseased tonsils	23	23	2	2
Defective speech	1	1	0	0

Total number of pupils vaccinated, 22.

Number pupils treated at tonsil and adenoid clinics  
June 25, 1928, 4.

## CENSUS.

Number of resident children 5 to 16 in local schools Sept. 30, 1928	89
Number in high schools or academies outside the district	4
Number in elementary schools outside the district	0
Total number of children 5 to 16 in some school	93

Number 5 to 8 not in school	8
Number 8 to 14 not in school	0
Number 14 to 16 not in school	1
Total number of resident children 5 to 16	102

This total is exactly the same as for last year, in fact there has been little change for the past six years.

#### STATISTICS FOR THE YEAR ENDING JUNE 30, 1928.

Number of pupils registered	98
Average number half days schools were in session	354
Average membership	77.50
Average attendance	72.27
Percent of attendance	93.25
Average number of half days each pupil was in school	330.10
Pupils not absent nor tardy	5
Cases of tardiness	290
Average number of tardiness per pupil	3.7
Non-resident pupils	3
Pupils transported at district expense	16
Visits by superintendent	107
Average number of visits by superintendent per teacher	18.8
Visits by citizens	158
Visits by board members	6
Meetings of school board	12

In 1925-26 the percent of attendance (93.24) was the highest it had ever been before. The next year it was somewhat lower, but last year it came back to 93.25, slightly above the previous high point. By comparing other of the above figures with the corresponding ones for the year before we find that the number of tardinesses dropped from 347 to 290, that the number with perfect attendance increased from two to five, that the average number of pupils in school dropped about 15—from 92.49

to 77.50, and that the number of visits by the superintendent increased sixteen. For the whole state last year the per cent of attendance was 94.89 as compared with Gilmanton's 93.25; the number of tardinesses per pupil was 1.04 as compared with 3.7 for Gilmanton, and the average number of visits per teacher by the superintendent was 17.1 as compared with 18.8 in this district.

#### BUILDINGS AND EQUIPMENT.

Last summer the Kelley's corner schoolhouse was remodeled to standardize the lighting. A Kaustine heater and ventilator, and new double-roll shades were installed, and a hardwood floor laid. If the toilets were fixed, this school would be one of the best equipped in the union.

Some work was done at the Iron Works but more needs to be done. The furnace problem here is still unsolved and the underpinning must receive attention in the near future if the building is to be kept from falling to pieces.

Because of the expense of the repairs that must be made at the Iron Works, I do not recommend this year the complete remodeling of the Smith Meeting House schoolhouse to standardize the lighting, but some work should be done there, and the correction of the lighting defects kept in mind for another year. Only two schools in this whole union are still using wood blackboards; Smith Meeting House School is one of them. This should be replaced by better ones, the platform should be removed and a new floor laid.

The Sanborn schoolhouse has not been painted for years and should receive attention soon if it is to be kept up.

#### CONCLUSION.

From the foregoing statements it may be observed (1) that Gilmanton teachers are well trained for their work (2) that Gilmanton pupils are now well up to standard

when they complete the eighth grade, (3) that the health supervision is effective, (4) that the regularity of attendance of the pupils is rapidly improving, but is not so good as for the state as a whole, and (5) that the standardization of the buildings and equipment is progressively nearing completion.

I am glad of this opportunity to express my appreciation of the generous cooperation I have received during the past year from the school board, teachers, pupils, parents and other citizens.

Respectfully submitted,

LESTER B. BADGER,

*Superintendent of Schools,*

*Supervisory Union No. 49.*
